

SIRIC ILIAD : KICK OFF MEETING

Programme
22 février 2018

Institut de Recherche en Santé de l'Université de Nantes (IRS-UN)
8 quai Moncoussu - BP 70721 - 44007 Nantes cedex 1

14:00-14:15 Accueil du Coordinateur, brève présentation du projet

14:15-15:30 Présentation des programmes de recherche intégrée

Programme 1 : ThARGET - Theranostic Applications Radionuclides Getting Eradication Tumors (F. Kraeber-Bodéré, M. Chérel)

WP1: Prognostic Imaging at Diagnosis: Radiomics and Quantification of Heterogeneity, [Thomas Carlier](#)

WP2: Therapeutic evaluation using PET: application to MM, [Caroline Bodet-Milin et Alain Faivre-Chauvet](#)

WP3: Imaging of tumor heterogeneity at relapse: application to BC, [Caroline Rousseau](#)

WP4: Innovative radiopharmaceuticals for PET imaging and molecular radiotherapy, [Joëlle Gaschet et François Guérard](#)

WP5: The increasing complexity of coordination in the context of innovation: the case of nuclear oncology, [Bénédicte Geffroy](#)

Programme 2 : PISTER-Parametrization of Immune Suppression, Tumor Escape and Resistance (P. Juin, C. Pellat)

WP6: Investigation of the molecular and functional heterogeneity of tumors and their (immune) microenvironment at diagnosis, [Martine Amiot et Yves Delneste](#)

WP7: Evaluation of residual tumor clones or systemic response to cytotoxic challenge and their evolutionary changes under pressure of frontline therapy [Julie Gavard et Cyrill Touzeau](#)

WP8: Definition of the molecular and functional heterogeneity of tumors and their microenvironment at relapse, [Catherine Pellat-Deceunynck et François Vallette](#)

WP9: Mathematical integration of the complex data collected, [Stéphane Minvielle et Bertrand Michel](#)

Programme 3 : REWORK / QoL Quality Of Life And Sustainable Return to Work : From The Individual To The Collective: An Integrative Approach (Y. Roquelaure, F. Molinié)

WP10 : Geographical and social disparities determinants of BC incidence and survival in the Pays de la Loire, [Florence Molinié et Anne Cowppli-Bony](#)

WP11 : Consequence of the diagnosis of BC on Health-Related Quality of Life (HRQoL) in an integrative approach, [Angélique Bonnaud-Antignac](#)

WP12 : Return to work and sustainable stay at work, [Yves Roquelaure](#)

15:30-16:00 Les missions de dissémination et de valorisation

16:00-16:45 Discussion générale et stratégie du SIRIC

16:45-17:00 Point administratif et financier
