

8TH SIRIC MONTPELLIER CANCER ANNUAL MEETING

*In collaboration with FHU EVOCAN & Montpellier
University "Pôle Biologie Santé"*

25 JUNE 2021
PALAIS DES CONGRÈS
LA GRANDE-MOTTE

08H45 Welcome and opening remarks

Prof. Marc YCHOU, Director of SIRIC Montpellier Cancer,
General Director of Montpellier Cancer Institute

Session 1

**Cancer research from bench to preclinical studies in Montpellier:
highlights 2020-2021**

Chairs: *Philippe PASERO (IGH, Montpellier) & Serge ROCHE (CRBM,
Montpellier)*

09H00 Notching up the resensitization against EGFR TKIs in lung adenocarcinoma harboring EGFR “gatekeeper” mutations

Antonio MARAVER (IRCM, Montpellier)

09H30 Targeting the ubiquitin-like molecule NEDD8 for therapeutic intervention

Dimitri XIRODIMAS (CRBM, Montpellier)

10H00 Spatial chromatin organization in normal & pathological hematopoietic cells

Eric SOLER (IGMM, Montpellier)

10H30 More than a crosstalk, histone marks can be drivers of the changes in splicing essential for EMT

Reini FERNANDEZ DE LUCO (IGH, Montpellier)

11H00 Coffee break

Streaming video

Session 2

Keynote lecture

Chair: *Dan FISHER (IGMM, Montpellier)*

11H30 Cancer evolution, immune evasion and metastasis (by videoconference)

Charles SWANTON (The Francis Crick Institute, London)

Keynote lecture

Chair: *David AZRIA (ICM, Montpellier)*

12H00 Micron-Scale AI-driven Radiation Therapy driven Multi-Parametric Imaging

Nikolaos PARAGIOS (Thérapanacea, Paris)

12H30 Lunch

Session 3

Recent updates in clinical and translational research

Chair: *Marc YCHOU (ICM, Montpellier)*

13H30 Innovative Methodology for Discovery of Pancreatic Cancer Biomarkers using Endoscopic Fine-Needle Aspiration Samples

Andrei TURTOI (IRCM, Montpellier)

14H00 CAR-T cells: Treatment of today, treatment of the future?

Guillaume CARTRON (CHU de Montpellier)

14H30 Untangling tumor adaptive responses to select new drug combinations

Diego TOSI (ICM, Montpellier)

Session 4

Patient involvement in cancer research

Chairs: *Maguy DEL RIO (Montpellier) & Cyril SARRAUSTE de MENTHIERE (Montpellier)*

15H00 Sharper questions, higher impact, better grants - why you want patients in your cancer research ecosystem (by videoconference)

Bettina RYLL (Melanoma Patient Network Europe, Uppsala)

15H30 Coffee break

Streaming video

Session 5

Emerging themes of Montpellier Cancer Research

Chairs: *Ula HIBNER (IGMM, Montpellier) & Claude SARDET (IRCM, Montpellier)*

16H00 Using Intervention Mapping to co-create with stakeholders an intervention to facilitate return-to-work after breast cancer

Guillaume BROU (Epsilon, Montpellier)

16H20 BH3 profiling identifies ruxolitinib as a promising partner for venetoclax to treat T-cell prolymphocytic leukemia

Charles HERBAUX (CHU de Montpellier, IGH)

16H40 Citrullination of RNA Polymerase II controls Transcription plasticity in Breast Cancer

Priyanka SHARMA (IRCM, Montpellier)

17H00 Understanding the immune microenvironment to improve immunotherapy for brain tumors

Alexandra GARANCHER (IRCM, Montpellier)

17H20 Closure

REGISTRATION FREE BUT MANDATORY
